STEP 1

Install 2pcs M6x16mm hex socket screws+
2pcs M6xD18 washers

STEP 2

The frame needs to be fixed before installation
And there is enough height from the ground to place the table legs

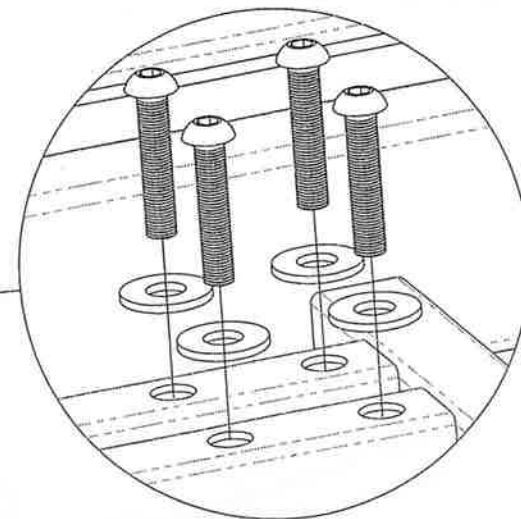

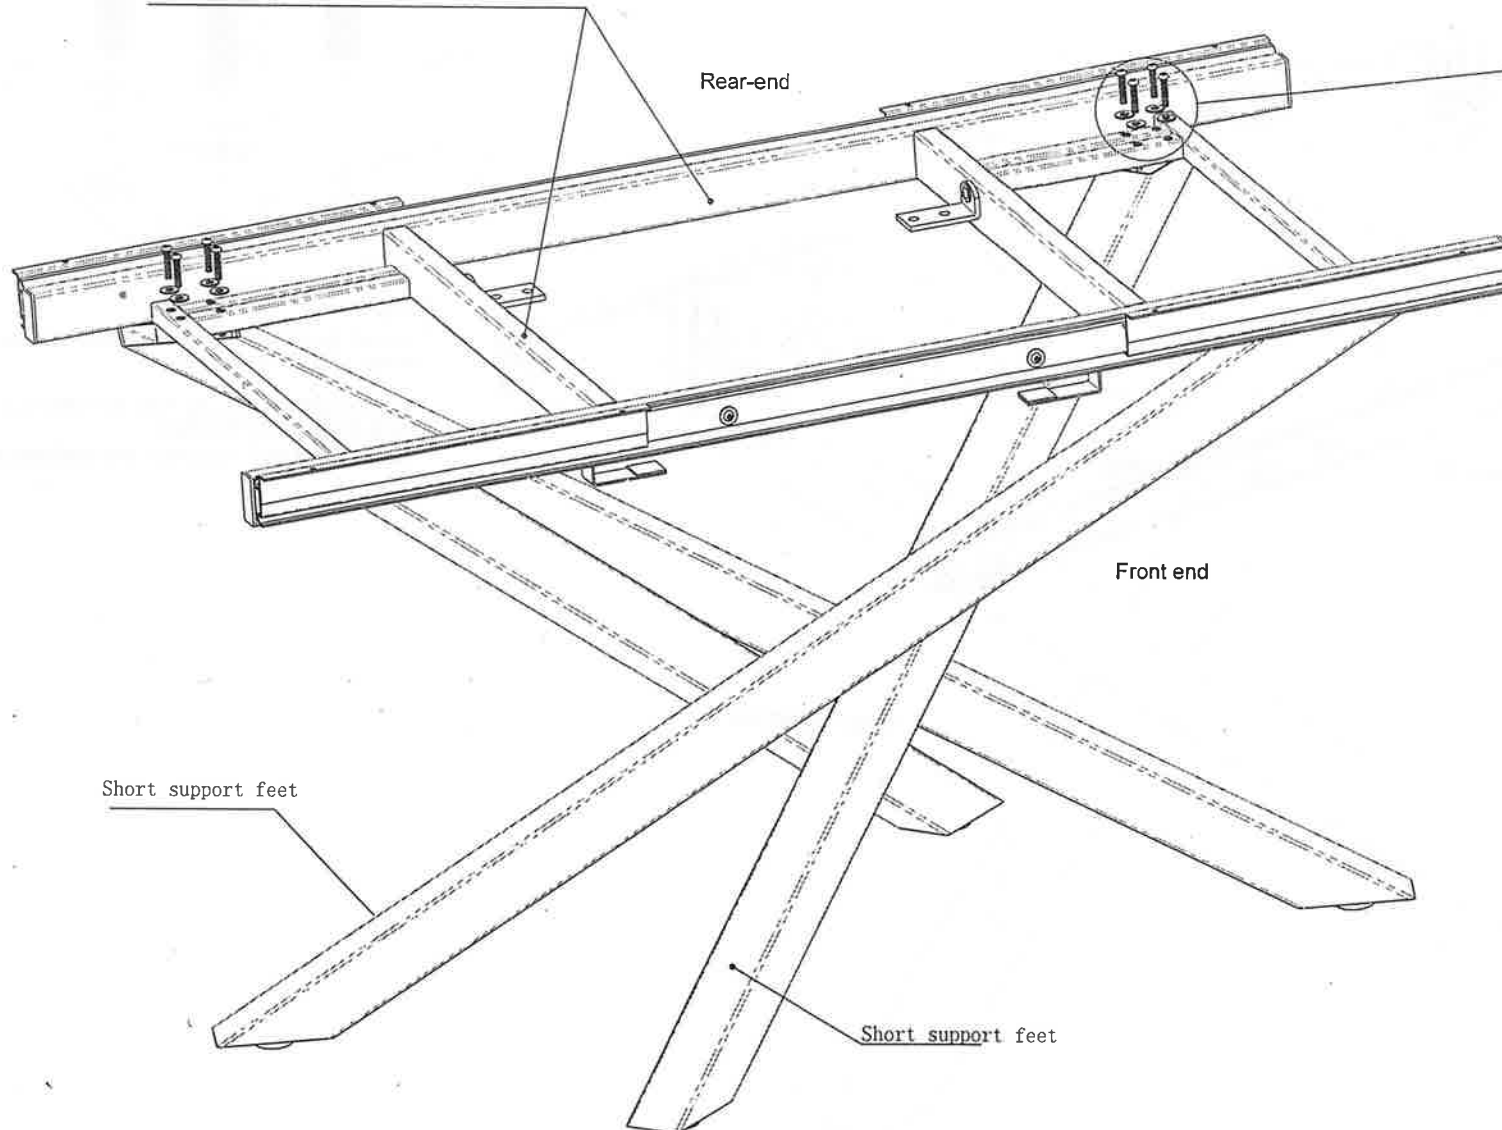

A Operate:

1. Install 8pcs M6 * 35mm hex socket screws and 8pcs M6xD18 washers
2. Installing 8 screws only fixes the table legs and does not tighten them
(Convenient for B operation and installation)

STEP 3

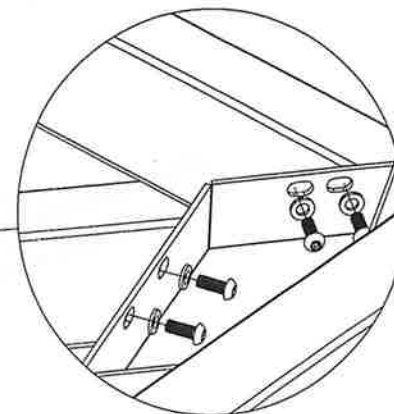

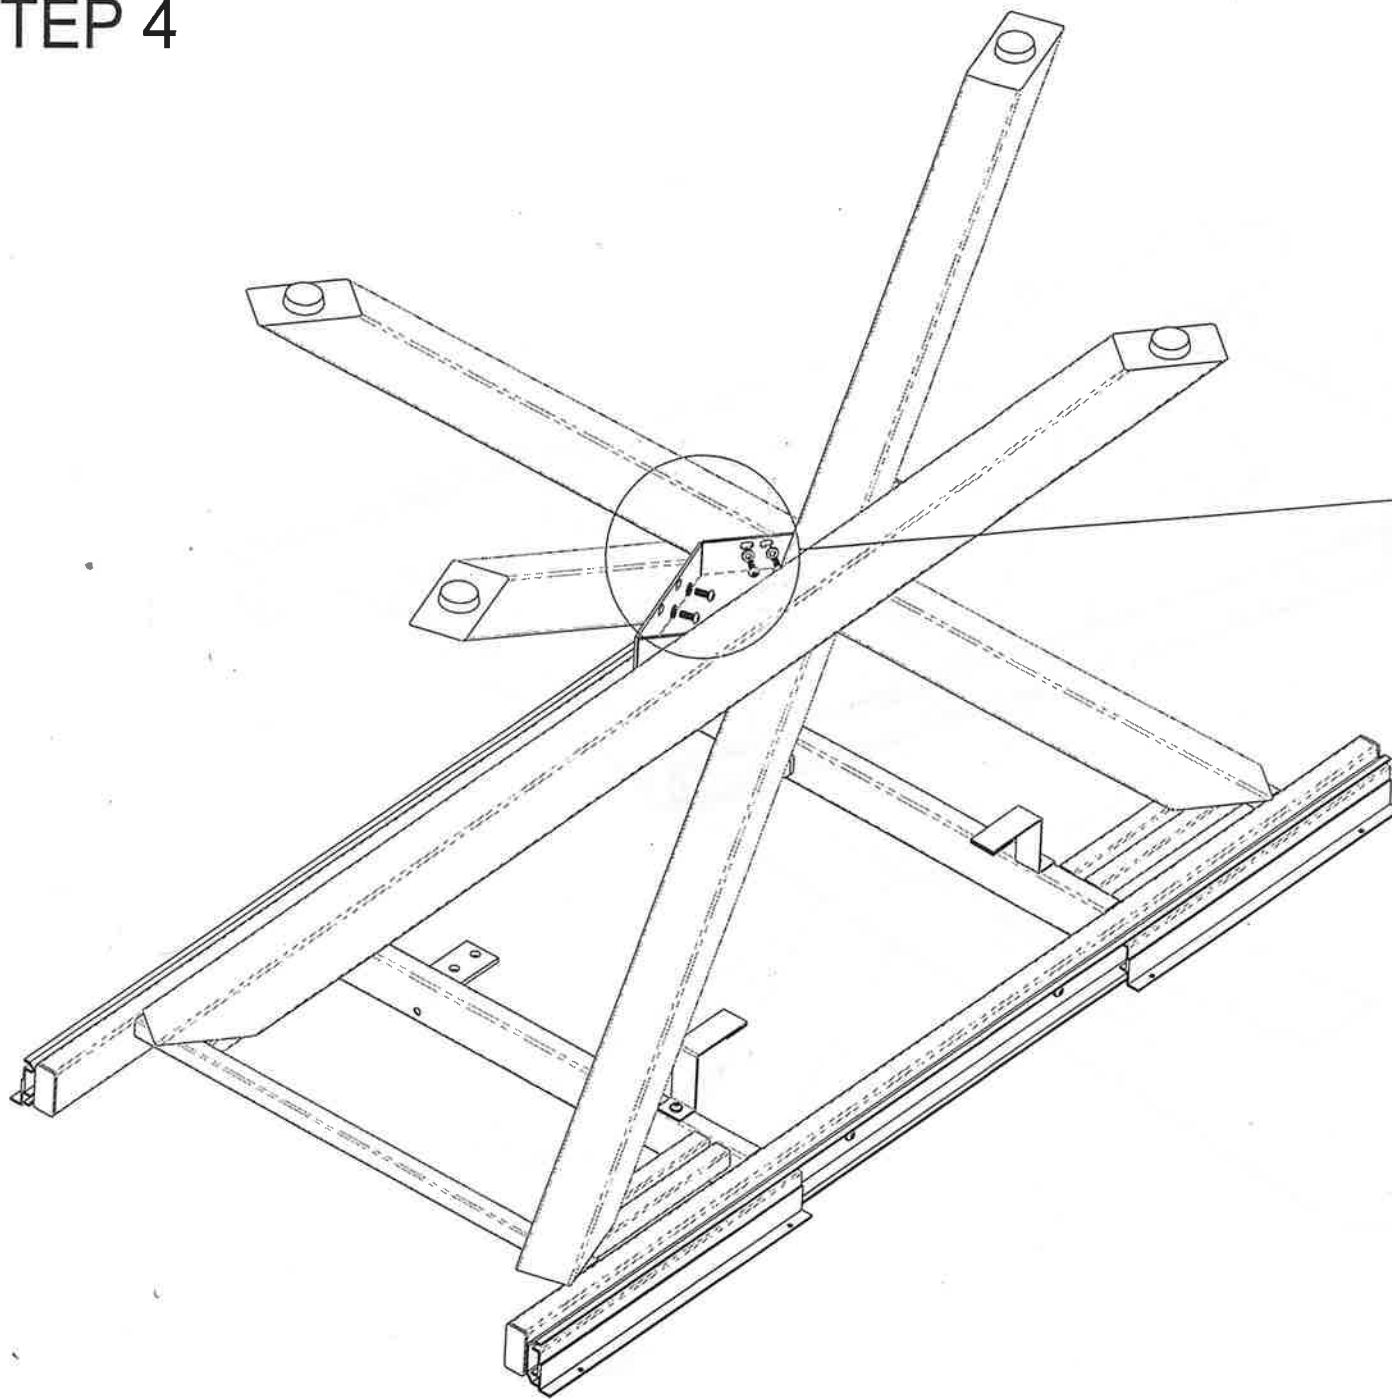

The frame needs to be fixed before installation
And there is enough height from the ground to place the table legs

A Operate:

1. Install 8pcs M6x35mm hex socket screws and 8pcs M6xD18 washers
2. Installing 8 screws only fixes the table legs and does not tighten them
(Convenient for B operation and installation)
